- Column 8: **30 Jun 26**, the number of animals housed at this Zoos Victoria on 30 June 2026
- 1.0.0 = 1 male
 0.1.0 = 1 female
 0.0.1 = 1 sex has not been determined
 3.6.1 = 3 males, 6 females and 1 sex unknown/not determined

This Annual Inventory Report has been generated using ZIMS (Zoo Information Management System), a web-based animal-records data-based managed by Species 360. Common names and scientific names used by ZIMS on occasions may differ from those used at Zoos Victoria. On occasions, numbers captured in these inventory reports may deviate from actual numbers. Tallies reported in summary number may vary slightly to those in Inventory report.

Zoos Victoria's contribution to wildlife rescue and rehabilitation

Every year hundreds of injured and orphaned wildlife are brought to Zoos Victoria for assessment, treatment and care. Many of these cases involve trauma, such as car accidents or attack by cats and dogs, resulting in fatal injuries. These cases may require euthanasia. Some cases may require rest and can be released within 24 hours of arrival. Some cases have minor injuries and can be transferred to registered wildlife shelter operators having the appropriate expertise for further care. ZV veterinary staff will continue to monitor the health of cases transferred to wildlife carers. During 2025/26 Zoos Victoria admitted 4083 wildlife cases:

- Healesville Sanctuary, received 2046 animals, of which 303 were successfully treated and returned to the wild, whilst 474 were transferred to registered wildlife carers, government agencies, other ZV properties or other approved institutions for further care and/or release.
- Melbourne Zoo, received 683 wildlife admissions, of which 158 were successfully treated and returned to the wild, whilst 36 were transferred to registered wildlife carers, government agencies, other ZV properties or other approved institutions for further care and/or release.;
- Werribee Open Range Zoo, received 1354 animals, of which 115 were successfully treated and returned to the wild, whilst 147 were transferred to registered wildlife carers, government agencies, other ZV properties or other approved institutions for further care and/or release.
