- 1.0.0 = 1 male
- 0.1.0 = 1 female
- 0.0.1 = 1 sex has not been determined
- 3.6.1 = 3 males, 6 females and 1 sex unknown/not determined

This Annual Inventory Report has been generated using ZIMS (Zoo Information Management System), a web-based animal-records data-based managed by Species 360. Common names and scientific names used by ZIMS on occasions may differ from those normally used at Zoos Victoria. On occasions, numbers captured in these inventory reports may deviate from actual numbers. Whenever possible, manual edits have occurred to amend these inconsistencies.

Inventory Report Healesville Sanctuary (cont)
Summary Numbers

As at 30 June 2024, there were 1293 animals living at Healesville Sanctuary, with similar numbers of birds and amphibians, more than other types of animal (see Fig 1).

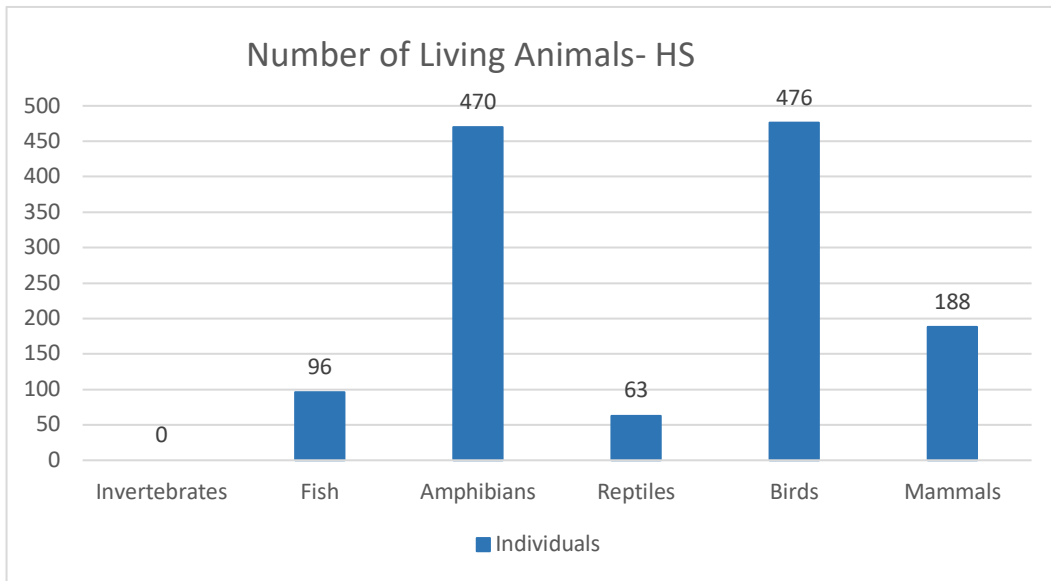

Figure 1: Number of living animals at Healesville Sanctuary as at 30 June 2024.

As at 30 June 2024 Healesville Sanctuary housed 130 different types of animal, with more species of bird housed than other types of animal (see Fig 2).

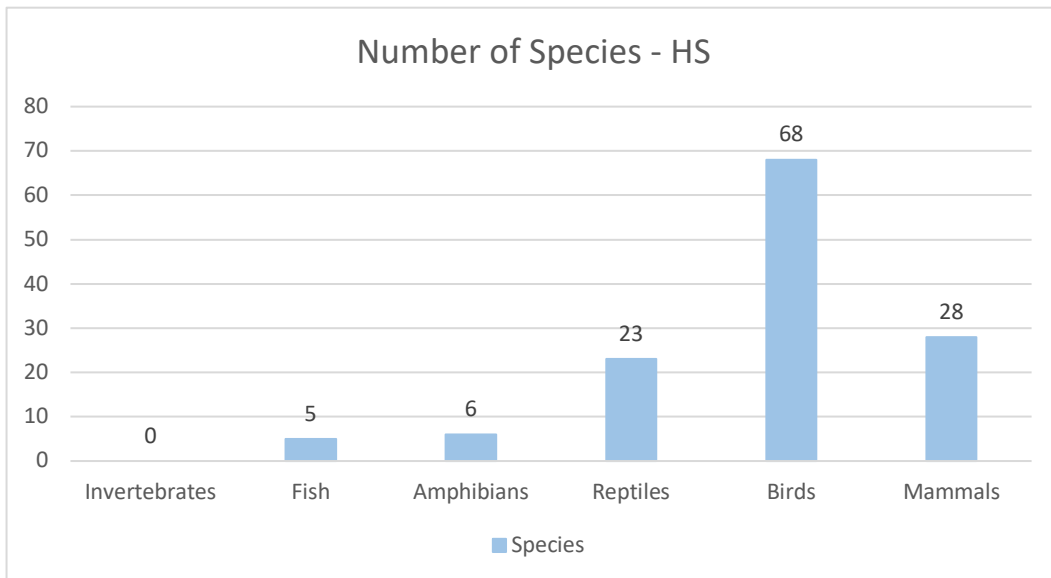

Figure 2: Number of animal species housed at Healesville Sanctuary.

Tallies reported in summary number differ to inventory report – this is due to the way the Species 360 handles data for various reports.

Zoos Victoria's contribution to wildlife rescue and rehabilitation

Every year hundreds of injured and orphaned wildlife are brought to Zoos Victoria for assessment, treatment and care. Many of these cases involve trauma, such as car accidents or attack by cats and dogs, resulting in fatal injuries. These cases may require euthanasia. Some cases may require rest and can be released within 24 hours of arrival. Some cases have minor injuries, and can be transferred to registered wildlife shelter operators having the appropriate expertise for further care. ZV veterinary staff will continue to monitor the health of cases transferred to wildlife carers. During 2023/24:

- Healesville Sanctuary, received 2091 animals, of which 326 were successfully treated and returned to the wild, whilst 574 were transferred out to either registered wildlife carers for further care and release or other government organisations;
- Melbourne Zoo, received 934 wildlife admissions, of which 175 were successfully treated and returned to the wild, whilst 46 were transferred out to registered wildlife carers for further care and release;
- Werribee Open Range Zoo, received 1214 animals, of which 198 were successfully treated and returned to the wild, whilst 202 were transferred out to registered wildlife carers for further care and release.
